## Summary

---

Final-year B.Tech student skilled in JavaScript, React, HTML/CSS, and backend basics with Node.js and MongoDB. Built multiple academic and self-driven projects involving APIs, authentication, and database integration. Quick learner with strong problem-solving attitude, aiming to grow into a full-stack developer through internship and project opportunities.

## Education

---

<b>B.Tech</b> , Arya College of Engineering, Jaipur	2022 – 2026
<b>CBSE</b> , Intermediate (Class XII)	2022
<b>CBSE</b> , 10th Grade	2020

## Projects

---

### Full Stack E-Commerce Platform (*React + Node + MongoDB*)

github.com/coolkunal9/CodeAlpha<sub>Ecommerce</sub>

- Developed modular CRUD APIs with token-based authentication, ensuring reliable and protected content operations.
- Integrated a lightweight frontend to test and validate backend endpoints, improving debugging and development speed.

### Secure Blogging Platform Backend (*Node.js + Express + MongoDB*)

github.com/coolkunal9/BlogPlatform

- Designed modular CRUD API backend with token-protected routes and middleware.
- Integrated a lightweight HTML/CSS frontend to test and consume backend APIs for smooth feature validation.

### CareerGenie AI Interview Prep System (*Python + Gemini API*)

github.com/coolkunal9/CareerGenie-AI-Interview-Prep

- Built multi-agent logic to automate resume review and mock interview generation based on candidate profiles.
- Integrated Google Gemini API to deliver structured, context-aware interview responses with improved accuracy.

## Technologies

---

**Languages:** C, C++, JavaScript, Python

**Front-End:** React.js, JavaScript, HTML, CSS, Redux, Context API, Vite, Chakra UI

**Back-End:** Node.js, Express.js, REST APIs, MongoDB, Mongoose, JWT, bcrypt

**Other:** WordPress (Basic)

**Databases:** MySQL, MongoDB

**Tools & Cloud / AI:** Git, GitHub, Postman, VS Code, IBM Cloud, Google Gemini API, Kaggle

## Certifications

---

**IBM SkillsBuild Certifications:** Getting Started with Artificial Intelligence, Journey to Cloud, Retrieval Augmented Generation with LangChain

**Technology Job Simulation** – Deloitte Forage

**Full Stack Development Certification** – Upflairs

**HTML, CSS, Java & JavaScript: Full Stack Programming Course** – Udemy

**JavaScript From Scratch (Beginner Level)** – Udemy
